

ALL AIR-COOLED GATHERING

Klub Kömpetition

The Teams

Each club will choose six members [one [1] driver and five [5] pit crew] as their primary team. They may also have five [5] alternates which may be substituted between races.

The Car

The car must be a completely stock, full bodied, air-cooled VW. It must be in running condition and include everything it had when it left the factory [ie: interior, bumpers, spare tire etc.]. Any discrepancy will be decided on by the host club.

The Race

This will be an two-up, head to head elimination race. Opponents will be chosen prior to the start of the event through a method chosen by the host club. In the event of an odd number of clubs participating, the host club will be the wildcard and enter the competition in the second round of eliminations. The track is 200' long. With a driver in the front drivers seat controlling the car, and the pit-crew outside pushing the vehicle, the team who reaches the finish line first will be the winner and will move to the next round of eliminations. The winner of the final round will be the winner of the event.

The Prize

A trophy that will be retained by the winning club will have the name of their club engraved into it. The following year the winning club must return to defend their title and the trophy. Each year, the winner of the event will have their club name added to the trophy.

This event is new, and the logistics are still in development. The rules above may be altered up to a week before the event. Check back often for updates.
